We started two decades ago with a mission to curate and create fresh tile concepts for enhanced personal environments and experiences. From the day we embarked on our journey, we are plying in the way to perfect the art of pulling inspirations from everything that appeals to the human eye and infuse it into our designs. From indoors to outdoors, from commercial spaces to domestic dwellings, our skillfully crafted pieces captures the essence of effortless sophistication everywhere!The Architectural Surfaces Series is the brainchild of similar collective efforts to create something that stimulates creativity and innovation. The textural intricacy, optical phenomenon of subtle color influences, and magical three dimensional punches clear in this beautiful series is a true testification that we are ushering a new era of products that are ahead of their time in terms of both functionality and design. Flawlessly trimmed in 300 X 1200 panels, these thoughtfully crafted – both technically & cosmetically–pieces will set the stage for your creative expression.
