

PRODUCTS

PP Laminated/ Unlaminated Bags

PP Woven Sacks/Bags (Laminated with LD film) are made from PP fabric as per the given. The PP fabric which uses to make it, can be laminated or unlaminated. Mostly it is in white colour and used for Fertilizers, Cattle feed etc.

PP Sacks/Bags with Liner

Liner is made from LLDPE, can be Natural or White as per the requirement. It is put inside of PP Woven Sacks/Bags to stop the air circulation as well as moisture in out. Mostly it is used to pack Sugar, Chemical and Oil based commodity.

BOPP Regular Bag

Multi Colour Printed BOPP film laminates on single or both side of the tube form fabric. Can make Glossy/Matte finish, with/without Gusset and with/without Liner. Can also make Aluminium foil (Metalized) laminated, Printed Polyester film laminated with the concept of Easy Open and Back Seam (Tubular). Mostly it is used for commodities like all type of Pulses, Wheat, Rice etc.

PRODUCTS

PP Colour Fabric Sacks/Bags

PP Woven Sacks/Bags can be also made colourful (Red, Yellow, Green, Black etc.) by using colour taps in making of its fabric

BOPP Handle Bag

The handle is added on top side of the bag to lift it up by gripping one hand fingers inside of it. This concept is used in low weight filling of 2,3,5 or 10 kg. Mostly it is used for commodities like Pulses, Basmati Rice etc.

'D' Cut Bag

The 'D' shape punching is made on top side of the bag to lift it up by gripping one hand fingers inside of it. This concept is used in low weight filling of 2,3,5 or 10 kg. Mostly it is used for commodities like Pulses, Basmati Rice etc.

Leno Bags

Our expertise lies in offering Leno Bags that are precision manufactured using quality raw material which provides in it high usage value. Mostly it is used for storage of vegetables like Onion, Potato etc.

TECHNICAL SPECIFICATIONS

Material	Polypropylene and Bopp
Length	Customized to your requirement
Width	30 cm to 122 cm (12" to 48")
Mesh	9*9 to 16*16
Denier	385 to 1600 Denier
Weight	35 GSM to 122 GSM and Above
Lamination	10 GSM to 48 GSM
UV Stabilization	200 to 1600 Hours And Above (Optional)
Cusset	Optional
Strength	Warp And Weft (Customized)
Elongation	20-25 % And Above
Cutting	Available in "Heat Cutting", "Cold Cutting", "Zigzag Cutting"
Stitching	Bottom/Top - Single and Double Fold with Single/Double Stitch. Top Hemming Or Handle As Per Requirement
Printing	Flexo Printing Upto 6 Colour BOPP - Upto 8 Colour Printing With Matte Finish
Packaging	Bale Press packing & Palletized packing available as per requirement
