# PRIVATE LABEL PACKAGING

When building a brand, retailers and importers prefer outsourcing their packaging operations. NANI offers a sector agnostic packaging and labeling unit which is also one of the largest facilities in the country. Customers can choose from an array of packaging materials (pillow pouches, mono cartons, boxes etc.) or customise it to fit their requirements.

Private label packaging is one of the pillars on which NANI very proudly stands. For customers trying to enter niche spaces, they require packaging that is up to the standards of the certification boards. Therefore we collaborate with them in 2 ways-

1. A customer may choose from our diversified portfolio of ready products to be rebranded and made suitable for their target audience.

2. Alternatively, a customer has the complete flexibility to create their own spice mix with the branding and packaging of their choice, to be manufactured and labelled under our roof.
